

Circular Sample Cutter

Circular sample cutter designed to cut circular samples easily, accurately, safe and fast, of exactly 100 cm², for e.g. g/m² determination, from sheet materials like textiles, plastic films, paper and board, fleece, foils, etc.

The aluminum body gives a light weight for ease in operation. With locking mechanism for safe and trouble free operation. The sample is cut out by turning the handle 90°. Comes complete with cutting pad and spare knives.

Available models: 10, 50 and 100 cm², as well as 38 and 140 mm ø for the Martindale.

Features

- Rugged design, easy to use
- Delivery includes spare blades and cutting pad
- Available sizes: 10, 50, 100 cm² as well as 38 and 140 mm ø
- Works great together with our balance with direct g/m² readout

Technical details

Sample size	100 cm ²
Cutting depth	3 mm
Dimensions	165 ø x 115 mm
Weight	1.7 kg
